

ESAFETY SCENE by Polish school

Prosecutor: I accuse (name of student) of using his friend's tablet to make an online friendship with an unknown person via chat and clicking on the links sent to him. By clicking on those links, (name of student) let a cyber hacker access the bank account of his friend's parents and steal 10,000 Euro. I demand a lifetime ban on the use of the Internet for (name of student)

Defense attorney: Your Honor, the punishment requested by the prosecutor is far too severe. My client is a young person, he acted recklessly, but he apologized. In addition, his parents will return the entire sum, 10,000 Euro to the parents of Jakub G. In the future, my client may need the Internet while studying in high school or college. That's why I'm asking you to punish my client with 30 hours of community service.

Judge: Thank you, prosecutor and defense attorney.

The judge leaves, after 10 seconds he returns, everyone stands up, then sits down when the judge sits down.

Judge: The court took into account the young age of the defendant and the fact that (name of student) regrets what he did. I choose a penalty on (name of student) to prepare leaflets and to visit 10 primary schools. He will talk to students about internet safety rules. Tomorrow at 9.00, he will present the results of his work during a final hearing. If he comes unprepared, he will be banned from the Internet for life. I close today's session.

Everyone leaves the stage, reappears after 10 seconds, the defendant has a pack of leaflets in his hands.

Judge: Is the defendant ready?

Defendant: Yes, Your Honor

Judge: So let's listen.

[Defendant] Your Honor, I've been taught a lesson for my foolish behavior. I appeal to everyone - if you don't want to end up in court or jail or with lost money, don't make my mistakes:

- protect your accounts on social networking sites
- Use anti-virus software
- download files carefully
- avoid clicking on unknown links and attachments
- Do not share your personal information online
- Use hard-to-guess passwords
- when making online friends, be careful - the person on the other side does not have to be who they say they are

Your Honour, these slogans are on my flyer (defendant walks up and hands the flyer to the prosecutor, lawyers and selected members of the audience - front row?) These flyers will be distributed to children in schools.

Judge: Does your defense attorney wish to speak?

Defense Attorney: No, Your Honor.

Judge: I require (name of student) to distribute the leaflets in the schools which he will visit, and to talk about the benefits of using the Internet safely. I give the name of student 30 days to complete the task. Did the defendant understand?

Defendant: Yes, Your Honor.

Judge: I close the trial. Remember: online safety is the safety of all of us.
